Friends, fellow hunters and future clients

Thank you for taking the time to page through our brochure, website and general information. This is a mere continuation of a vision and dream I have had since my childhood days growing up in the open spaces of the African Bushveld.

Man, and mankind have always been hunters. Although we live in a modern world, I soon realized that I could provide that experience to YOU.

Born in the North-West Province of Southern Africa, I grew up in a family of hunters. Hunting with other professional hunters from as young as 13 years of age, it laid the basis for my career choice as a professional hunter and eventually an outfitter. Finishing senior school in the Lowveld of Southern Africa was followed by 2 years national service, of which 1 year was Angola. To extend my knowledge of the African bush I did a 3-year diploma in Nature Conservation. My year of practical was spent with the South African National Parks Board.

After I spent a number of years as a freelance Professional Hunter for companies such as Kgama Safaris and Hunters & Guides, I started hunting fulltime with my own company Phillip Bronkhorst Safaris.

Towards the end of 2018 we have rebranded becoming Bronkhorst Safaris, welcoming the younger generation of the Bronkhorst family into the safari business to proudly continue and build onto an amicable history of safari and sport hunting to be experienced by future hunters booking their life long dream with BRONKHORST SAFARIS.

The shores of Africa are our boundaries. Hunting Africa is our passion. Guiding clients in Africa to fulfill their lifelong dreams is our mission. A happy client is our goal. All of the above mentioned is only possible in top class areas, well equipped safari camps, professional hunters of outstanding quality and making you feel welcome in our safari camps.

We feel proud about what we can offer our safari guests. We would like to extend our invitation to you to book or re-book your safari with BRONKHORST SAFARIS. Even if it is a safari in the not-too-distant future, our combined knowledge and dedication would make planning and booking this safari an easy experience.

Africa is waiting ... whether it is your first safari or another safari; we look forward to hearing from you!

Phillip, Jo-Anne, Christiaan, Dewald & Ruan Bronkhorst

General Information

South Africa is still the Plain's Game Capital of Africa. It is also the sole place where you hunt legally on a sustainable basis, all of the Dangerous Seven and plains game safely and with ease. It is also the ideal family safari destination, whether you do a hunting, fishing or photographic safari.

Situated on 4000 acres of private land.

...The Name to Remember

Accommodation

If you hear the word AFRICA, the immediate thought would be SAFARI and EXPERIENCE. Part of that Experience is the Accommodation and Amenities.

Luxury Safari Accommodation is offered in all our hunting areas. Bateleur Tented Safari Camp is our basecamp where you will be hosted in typical East African Style Safari Tents. Our luxurious Safari Tents feature all the comforts of home ... inviting beds, flushing toilets, outside showers, 220v electricity and hot and cold running water. Typical African Cuisine consisting mostly of venison or meat of choice, vegetables and fruits from the area is paired with South Africa's finest wines. Evening meals are served in the Boma or in our inviting open-air dining room. A full bar is available to offer you your drink of choice. At the end of the day, you can relax by the pool ... or share the day's adventures and EXPERIENCES around the campfire with your hunting friends and family. Falling asleep at night with the serenade of the sounds of African nightlife in the distance would end another day's experience in AFRICA. Domestic service and laundry are provided daily.

To add to the perfection of your safari experience a wish list will be sent to you upon booking your safari. Food, drinks, medical condition and species that you are interested to harvest will be completed on this wish list. All of our safari camps and lodges carry the stamp of approval of our national tourism agency.

Capture your Safari on Film

African Safaris are not merely the hunting of trophies with a bow or rifle. It is experiencing the vast wilderness of Africa, breathing its atmosphere, living it and collecting a lifetime of memories. As they say "A picture can speak a thousand words", but it is the memories behind it that tells the story. Sitting around the campfire under the African sky after a hard day of hunting, discussing the day's exciting events, are some of the memories that you will take with you when you part with our continent.

Memories you can share with friends and family. What if you could relive those memories, taking home the excitement of the hunt? Bronkhorst Safaris now has a fulltime Videographer that will accompany you on your African Safari, documenting your every step.

The professional well-trained and experienced cameraman, with not only a passion for hunting, but also a passion for creating live memories, will ensure an exciting and memorable hunting DVD, allowing you to relive your African memories with friends and family.

Keep on Shooting

Bronkhorst Safaris in association with Professional Portfolio Video Productions, now offers his clients this opportunity.

Take your level of photography to the next level. Phillip Bronkhorst Safaris now also offer you the unique opportunity to explore your passion as wildlife photographer.

We have several destinations in South Africa where you could be going on safari and be mentored on using your own equipment or using company equipment taking wildlife pictures. Fully equipped vehicles on land and boats on water is rigged out for your comfort and as a bonus professional photographers will be guiding you through the paces.

For more information on these destinations and packages please contact our office.

Larry Shores – Orlando Florida

"We just returned from a ten-day safari with Bronkhorst Safaris. This was my 34th safari. Everything was as represented to us. The hunting was excellent. Accommodation and food were good. Everyone was very accommodating and nice to us. The hunts are conducted ethically. Perhaps most important is that these are honorable people. I took a rhino, two buffalo, two sable and miscellaneous plains game. The trophy quality was excellent. I would not hesitate to go on safari with them again. In fact, I am sure that I will do so in the future."
